

Stabilised Pavements of Australia Pty Limited

Quality Policy

Commitment

Stabilised Pavements of Australia Pty Limited (SPA) is an Australian-owned company which has chosen to lead in the pavement rehabilitation and pavement recycling industries which predominantly includes the areas of profiling, insitu stabilisation and spray seal.

The purpose of this policy is to confirm our commitment to deliver the quality outputs expected by our customers in the products and services that we supply to them.

This quality policy applies equally to members of management, all employees and also to subcontractors or suppliers engaged by SPA.

SPA are committed to setting industry standards in the areas of equipment, expertise and project delivery quality. We constantly seek to improve our processes and operational performance to achieve these industry standards by using a Quality Management System (QMS) based on ISO 9001 and are committed to our customers through shared responsibilities, openness and honesty.

We ensure that SPA prospers on the basis of a reputation justified by work that consistently meets our customers' requirements and that of interested parties. The implementation and maintenance of quality is monitored to ensure lessons and opportunities are identified and addressed. The overall performance of the QMS will be reviewed by Management to ensure it remains effective and relevant

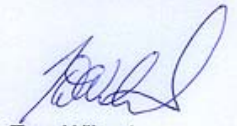

Corporate Strategies

- To communicate with customers and interested parties on issues of importance
- To identify and control risks associated with the standard of service or product that we provide along with the associated opportunities
- To monitor progress against documented Project Management Plans
- To respond to any changing circumstances or site factors
- To identify opportunities for improvement and agree on suitable actions to be taken
- To involve operational staff (and where appropriate subcontractors/customers) in the development of improvements, and to provide recognition for contributions

To implement this policy, SPA provides the necessary resources and management commitment to ensure that the QMS is effective, sustainable and that decision making is objective. Performance against the corporate strategies will be monitored in accordance with our objectives and targets to ensure we deliver our planned outcomes.

SPA has adopted procedures and disciplines to ensure:

- Training is provided to develop appropriate awareness of the QMS and the competencies needed by management
- Responsibilities for quality are established and communicated with all involved, including customers
- This policy continues to be appropriate by reviewing it at least annually
