- Airfield & Rail Projects

“**SPA'S SPECIALISED
ROAD SERVICES**”

SPA PAVEMENT STABILISATION

For over 30 years SPA has delivered innovative construction processes and cost savings for the management and rehabilitation of Australia's vast road network.

SPA ROAD PROFILING & EXCAVATION

SPA's experienced profiling crews are flexible and responsive to provide quality works on your projects.

We have expert Profiling Crews available in all States.

SPA BITUMEN SEALING

SPA combine state of the art spray sealing equipment with experienced crews to deliver a product exceeding expectations.

We have expert sealing crews to carry out specific customer needs.

MAJOR REHABILITATION

SPA have expert Project Managers, Foreman and field staff to deliver complex Road Projects.

With the benefit of our combined services, SPA offer excellent value and innovative solutions to significantly decrease construction time.

SPA MINING

SPA services the major mining companies with access road rehabilitation and haul road maintenance

Our Mining Services business unit understands Quality, Safety, Capacity, and rapid response required in the mining sector Construction solutions.

→ RAIL PROJECTS

SPA has been committed to servicing the rail transport industry to ensure stability of the rail network under strict time restraints to ensure the limited down time of the network.

→ CONTAMINATED SOILS

With growing pressure on land resources and greater environmental awareness SPA offer stabilisation / reclamation as an alternative to costly disposal of contaminated soil.

→ AIRFIELDS

SPA has successfully treated taxiways and runways on various airports throughout Australia and overseas utilising various treatments to handle the point loads from aircraft.
